Objective

Computer Science Engineering student in the final year, with hands-on experience in MERN stack technologies. Adept at building user-friendly web applications and integrating backend services using REST APIs. Seeking an opportunity as a Full Stack Developer.

Education

- Cauvery Institute of technology,Mandya** 2022-2026
Bachelor of Engineering (B.E) in computer Science and Engineering
7.8

Skills

- Frontend:HTML,CSS, Javascript,React,TailwindCSS
- Backend:Node.js,Express.js
- Database:MongoDB
- Programming: java
- Tools:Git,GitHub, VS Code
- Concepts: REST API,JSON,API Integration

Projects

- BookMyShow Clone(Full Stack Project)**
https://github.com/poornimapoorni312afk/MERN_Stu_FebMay26Mys/tree/main/Projects/Guided%20Project/BookMyShow
Developed a full-stack movie ticket booking application inspired by BookMyShow using the MERN stack (MongoDB, Express.js, React, Node.js).Implemented user authentication, movie listings, show timings, and seat selection features.
- AI MEDICAL VOICEBOT WITH VOICE AND VISION**
Developing a AI medical voicebot using both Voice and image inputs to simulate initial medical consultation,enhancing accessibility and accuracy. providing real time health assessments without the need for immediate human supervision,designed for potential collaboration with potential collaboration with human
- Portfolio Website**
GitHub: https://github.com/poornimapoorni312afk/MERN_Stu_FebMay26Mys/tree/main/Assignments/portfolio-project%20%202.
Developed a personal portfolio website to showcase projects, skills, and contact information using HTML, CSS, and JavaScript.

Internship Experience

- MERN Stack Intern**
Developed full-stack web applications using MongoDB, Express.js, React, and Node.js
Built and integrated RESTful APIs for efficient data handling,Implemented CRUD operations for dynamic data management

Certificate

- Full Stack Developer Course(MERN Stack)
